

My name is Miss Shirrie Barany, and I have been with the Somerset Academy schools since 2001, holding various employment positions. My experience with Somerset and my formal education have provided me with a strong understanding of the school's mission, as well as creative strategies to teach the students to learn to their potential. My certification stems from a Bachelor of Science degree in exceptional student education with additional endorsements in elementary education, teaching English as a second language, and I am currently working towards my specialized reading credential. I possess well-rounded experience from teaching students from Kindergarten through the eighth grade. I also worked for a psychology practice facilitating support groups for children bridging from elementary to middle school and providing them with individualized instruction. Among things I do for recreation are cooking, spending time with family and friends, water sports, shopping, and modern art.
